

K-LOVE brings me Christian music and inspiration that comforts my heart. No other radio station does this for me in my area. It is unpolluted music and format that was a real blessing when I was depressed and lonely. This is a worthy radio station for me and others in the community that I have talked to. Please do not displace KLOVE by an LPFM station. There are so many of the same type of radio stations "me too" in the area and KLUV is quite unique in its mission. There are people in great need for religion in their life today and I believe KLUV is a great source to turn to. So many people turn to religion when in need and being able to turn on the radio for it is quite unique. This radio station is a class act and is a blessing to listen to. I'd rather donate money to this radio station than my church, for it has a greater reach and public service.
